SUMMARY

Senior Product Designer with 5 years of experience in e-commerce, payment flows and charity products on large-scale marketplaces. I own features end-to-end, from hypothesis and research to launch and impact measurement.

EXPERIENCE

Avito · Senior Product Designer Apr 2025 – Present · Remote

Russia's largest classifieds platform. Charity and ESG products.

– Launched Kind Subscription, the first recurring donations flow at Avito, owning it end-to-end: from choosing a foundation to managing the subscription in the profile. **~55 new subscriptions** per day on average; average payment **64% above the minimum** amount.
~55 new subscriptions per day on average; average payment **64% above the minimum** amount.
– **Doubled** one-time donations by rebuilding payment setup
into a single screen on the main charity landing page.
– Redesigned the recycling map: unified navigation across the charity space, new design system components and saved favourites. **~1.6K daily visits** and **up to 70 points** saved per day.

Ozon · Product Designer Jul 2024 – Apr 2025 · Remote

One of Russia's largest e-commerce marketplaces. Seller tools.

– Built Buyer Segments in the seller CRM from scratch: audience analytics, recommendations and a direct path to mailings. **~1M buyers** receive CRM messages, **15% of sellers use** the CRM monthly, **13% average open rate**.
– Integrated Promotions into the Prices section of the seller account,
a tool used by **30,000 sellers daily**.
– **Tripled** traffic to the online price editing table by adding new features and a new entry point.

Flowwow · Senior Product Designer Mar 2024 – Jul 2024 · Remote

Flower and gift delivery marketplace.

– **Increased** website conversion **by 8.4%** within the first month by introducing
a Trustpilot reviews integration.
– Planned and conducted 10+ customer development interviews.
– Restructured the team's Figma workspace to speed up navigation and handoff.

SWTecNN · UX/UI Designer Nov 2022 – Mar 2024 · Remote

Custom software for healthcare and industrial clients.

– Created an MVP of a mobile app for patients.
– Designed an internal personal account for employees.
– Delivered a mobile app for company’s workers.

Nexign · UI Designer Feb 2022 – Nov 2022 · Remote

Telecom software company.

Developed interfaces for a KPI management system
and delivered developer-ready mockups on schedule.

ZeroLab, FUN&SUN · UX/UI Designer May 2021 – Nov 2022 · Remote

Digital agency and travel company.

– Designed the tour search home page and promo landing pages for FUN&SUN, a major tour operator.
